

Autumn Term Homework

These are optional activities that are in addition to the weekly homework for children that would like to explore our topics more at home. When you have completed the task please colour the box below ☺

Collect some natural items that can be investigated in class, e.g. crunchy leaves, conkers, acorns.

Go for a walk in woodlands and talk about what you can see, hear, smell and feel.

Have a go at making your own Gruffalo crumble at home.

Learn about ways of looking after our woodland environment.

Design your own Gruffalo home.
Try and include some special features you would like it to have!

Create an animal to go in our woodland area in class. You can use paint, colouring or 3D modelling to make your animal.

Pick one woodland and make a fact file. You could draw a picture, write its name and even include a fact!

Read a story about the woods and tell the class why you like it and what happens. You could even make a mask of one of the characters in the story.

Write a prayer or draw a picture for God thanking Him for something He made in the world.
